Dear Mr. Lasseur:

In this fax I enclose a number of documents that I believe should show at least some of the truth of Fatima's life. I did not include any Juvenile Court documents, because of their confidentiality, but suffice it to say that Ms. Alilire was found to have committed one count of abuse in Tehama County in 1997 (she pleaded no contest) and six counts of abuse against Fatima and her cousin, Faduma Sara, in her home in Porterville, Tulare County in 1998.

The letter from Fatima's therapist in 1993 shows that these were not the first times that Fatima was harmed by her mother. The two court documents from Monterey County in 1991 show how angry and out of control she has been through most of Fatima's life. She has never accepted this child's relationship with her father, never acknowledged the abuse and threats to Fatima, me and my extended family and friends.

The court documents from Tehama County in 2002/03 show that Fatima's mother "fight" with the system attempted to wipe her slate clean and blame others (judges and CPS) for her actions. The sad thing is that this reality has now been projected onto Fatima which now is spreading nationally.

Fatima's court declaration of 4/04 is the mirror image of her internet story, which I only saw for the first time a few weeks ago. It is frightening to me that I was so unaware of Fatima's secret life as spokesperson - even while the two court ordered therapist did know and said nothing to me.

I have included two articles about the court and personality disorders and PAS. You may come to your own conclusions whether they are relevant to what you have seen of Fatima and her mother. I refer to Fatima's poem for her mother - I question whether she even wrote it because it doesn't even match the beauty of Fatima's own writing. Lastly, there are some photos from 2002 and 2003 where the reality of some of Fatima's place with us can be seen on her face.

Please contact me after your review of this material. As I mentioned, my main goal is to prevent the lies from ruining Fatima's life any further. Perhaps you might become educated to another side of "domestic violence" - one that emotionally steals children away from the other, loving parent.

Sincerely,

Scott Loeliger
